

uWinFundMe

Application Usage Instructions:

Dashboard:

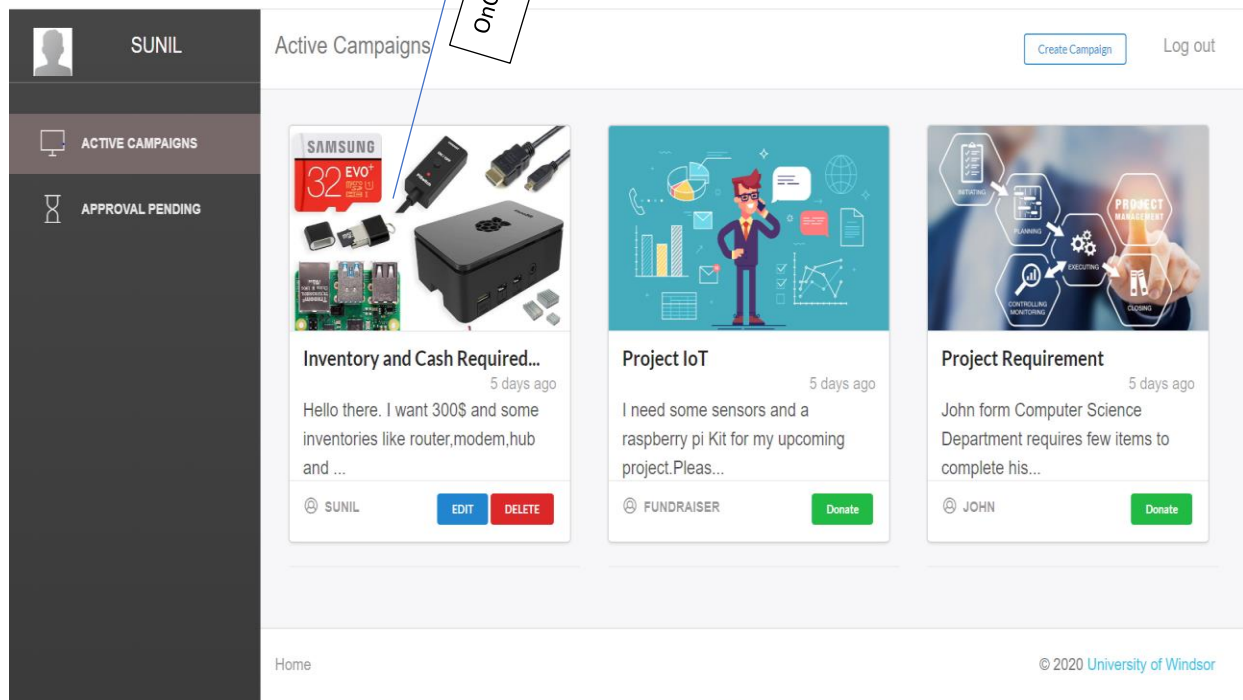

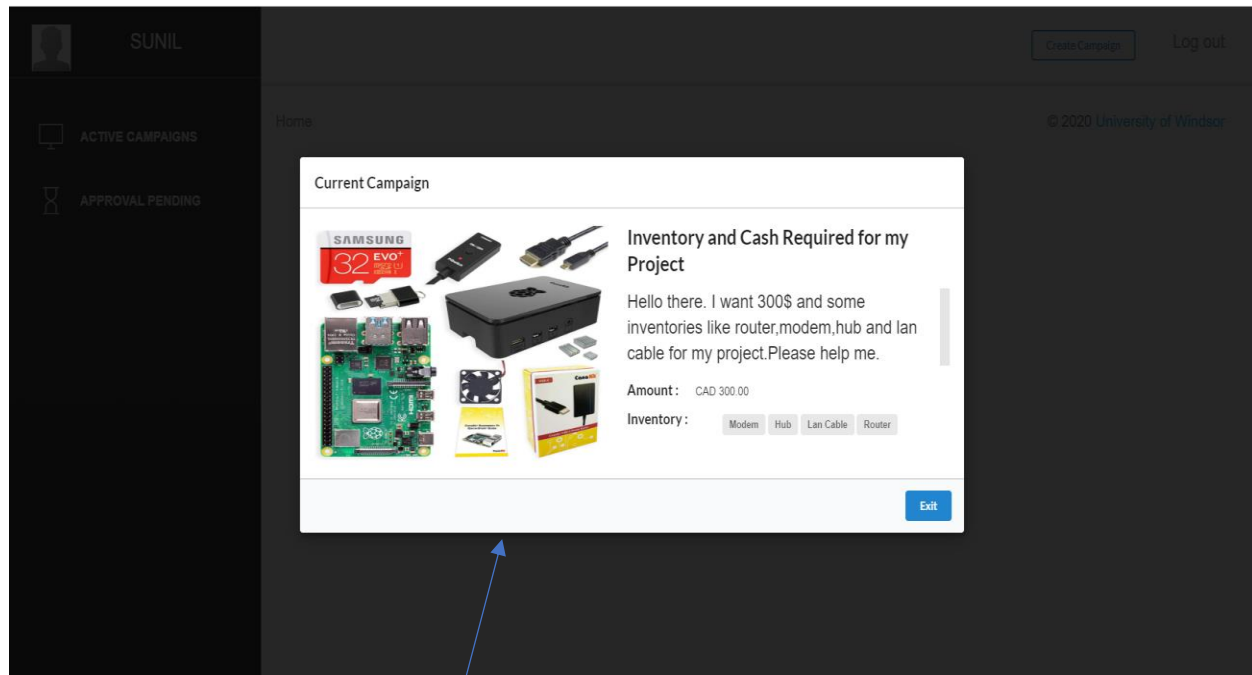

After the user logs in, they are redirected to this page and is a common view for all the profile types.

- 1) If the user is of donor type, S/he will not have permissions to delete or edit the campaigns rather he can only make the donations.
- 2) If the user is a fundraiser, S/he can create/edit/delete/view his/her campaign. Also view and make donations to any other campaigns.
- 3) If the user is MGO, S/he can create/edit/view/delete all the campaign available.

Campaign Details Modal:

On click on any campaign, user can see the description of the campaign appeared in a modal window. User can either click on exit button or anywhere in the black screen to exit the modal view.

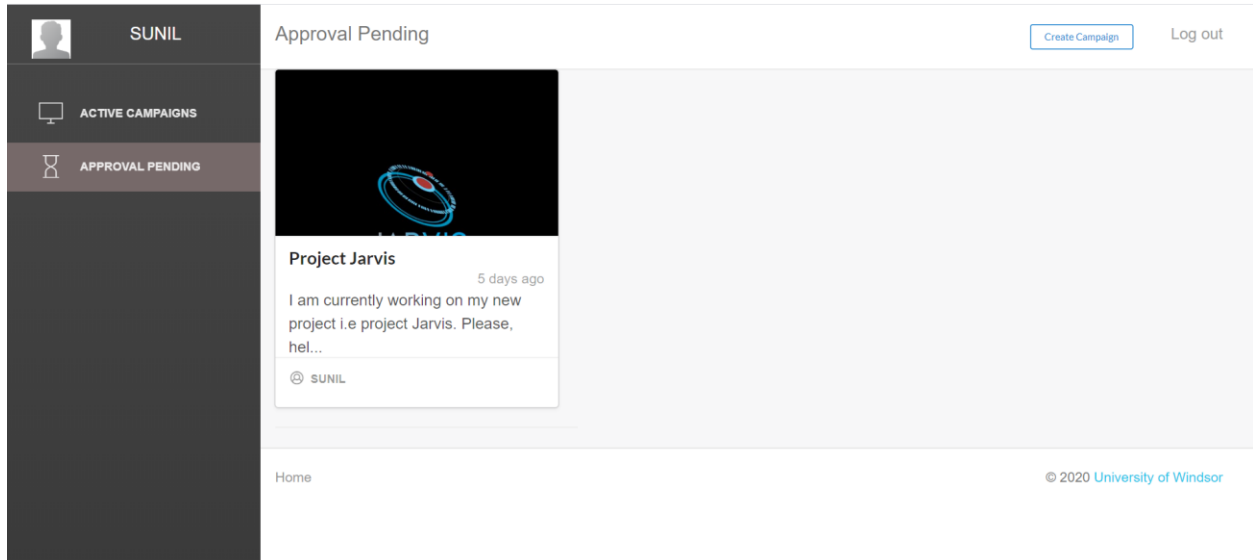

Approval Pending:

This screen will only appear for fundraiser and MGO.

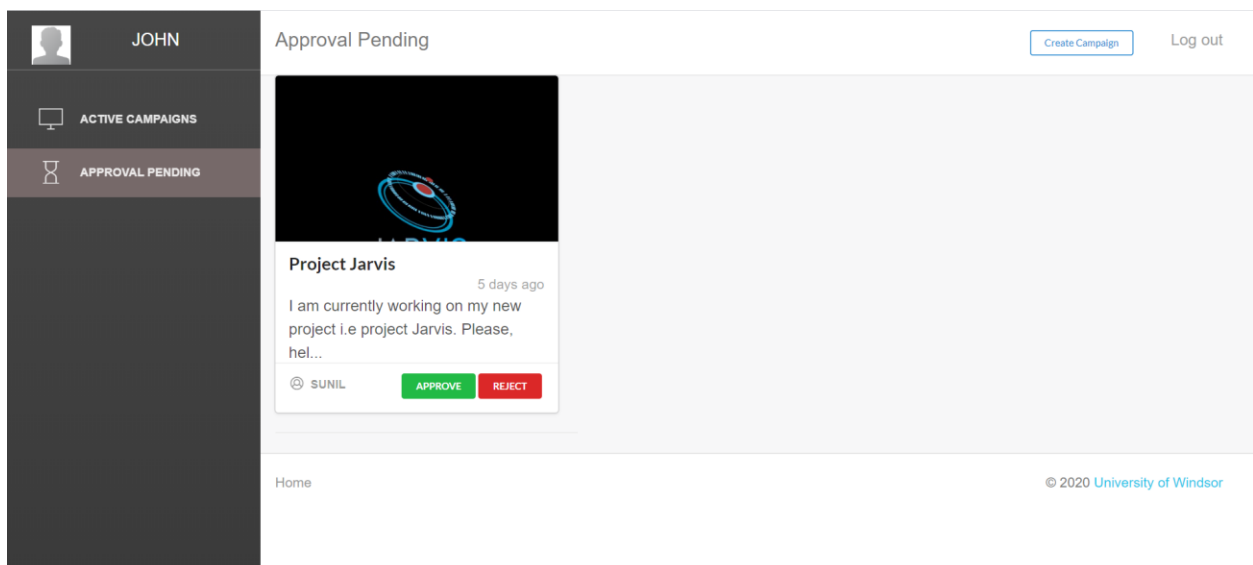

For Fundraiser:

After the fundraiser creates the campaign, until it is approved by MGO, won't appear in the active campaigns. This is an approval pending state.

For MGO:

Once the user creates the campaign, it will be in the pending state and will appear in the MGO's **Approval Pending** view as shown below. In this state, MGO can either approve or reject the campaign. If he approves, the campaign will be available in active campaign dashboard.

Create Campaign:

On click of the create campaign button it will redirect to the create campaign page where form will appear as shown below. By using this form user can input the details of their campaign and on submission, the campaign goes to **Approval Pending** status if it's created by fundraiser. If the campaign is created by MGO the campaign is not required to be approved.

Form fields:

Enter Title: User enter his/her campaign title.

Enter Description: More information about his campaign.

Enter Currency Code: CAD/USD or any other depending on his requirement and location.

Amount: The total amount required for his campaign.

Upload an Image: Select an image to upload for your campaign.

Add Inventory: On click of the button as shown below, the form will appear where user can enter the Inventory required.

The screenshot displays the 'Create Campaign' form within a user interface. The form is titled 'Create Campaign' and includes the following fields and buttons:

- Enter Title:** A text input field.
- Enter Description:** A text area for detailed information.
- Enter Currency Code:** A dropdown menu with 'CAD' selected.
- Enter Amount:** A text input field with '0.00' entered.
- Upload an Image:** A file upload section with a 'Choose File' button and the text 'No file chosen'.
- Add Inventory:** A button that, when clicked, leads to a secondary form.
- Go Back:** A button to return to the previous page.
- Submit:** A button to submit the campaign details.

A blue arrow points from the 'Add Inventory' button to a separate form below the main interface. This secondary form consists of a single text input field followed by a red circle with a white 'X' icon.

Edit Campaign:

On click of edit campaign user will be redirected to edit campaign page as explained above. The form will load with pre-existing value as shown below. Here, user can edit and submit the form. On submission the change is reflected to that campaign.
